### High Quality Construction at Affordable Prices – Shop and Compare our Specifications

- 100% solid wood cabinet boxes all predrilled with counter-sink
- 5/8" birch plywood construction urethane each side of panel
- Full overlay doors with soft close hinges that provide 6 points of adjustment
- Door frames are both splined or doweled
- Full extension drawers on under-mount slides with 125 lb capacity soft close feature
- All drawers are dovetailed front and back for strength and durability with urethane finish, 5/8 sides and ¼ plywood bottoms
- Face frames are ¾ maple or cherry attached with kreg pocket holes on wall panels
- Cabinet is constructed with dato joints to attach the cabinet face and rabbits for the full back panel. We provide a full back on both wall and base cabinets plus wood bracing in each corner. We do not use any plastic bracing.

Full extension 125 lb capacity soft close drawer slides

Six point adjustable soft-close hinge

- Bridge cabinets 12 and 24 inches deep from 12 to 24 inches high, 30, 33, 36 inches in width
